

MICROFILTER

ULTRALIGHT, CHEMICAL-FREE, MICROBIAL WATER FILTER

TECHNICAL SPECIFICATIONS:

Contents	(1) Explorer MicroFilter (1) 1L Anti-Bottle	Performance	99.9999% of bacteria 99.9% of protozoa
Weight	Bottle + Filter: 2.7 ounces Filter only: 1.1 ounces	Flow Rate	0.5L/min @ 0.2 bar
Dimensions	5.75"w x 10"h	Filter Life	Up to 500 liters
Filter Technology	Hollow Fiber Membrane Technology Pore size: Absolute .2 microns	Temperature	Min. operating temp: >0°C Max. operating temp: 55°C Max. storage temp: 65°C

- **Safe and Easy**
No chemicals. No pumping. No batteries. No waiting.
- **Multi-purpose**
Can be used in bottle, as straw or as squeeze filter.
- **Award Winning**
2013 winner by Outside, Gear Junkie and National Geographic.
- **Meets U.S. EPA Standards**
Exceeds CDC recommendations for water purity.

FAQ

- **HOW DO I USE IT?**
Drink purified water by sucking through spout opening, either when connected to an Anti-Bottle or as a straw directly from the source. Alternatively, you can squeeze water through bottle into another bottle or vessel.
- **WHERE IS IT MADE?**
The bottle is 100% made in the USA. The MicroFilter is made in Korea.
- **HOW DOES IT WORK?**
As you suck water through the spout of the cap, water is pulled through the hollow fiber membrane. With an absolute pore size of .2 microns, the membrane extracts 99.9999% of waterborne bacteria, organic matter and 99.9% of protozoa (anything over .2 microns) as water is pulled through to the spout.
- **HOW DO I CLEAN IT?**
The bottle is top-rack dishwasher safe. The filter should only be rinsed and left to air dry.
- **DOES THE MICROFILTER REMOVE ODOR & TASTE?**
The Vapur MicroFilter does not filter out odor or taste from the water.
- **HOW WILL I KNOW WHEN IT'S TIME TO REPLACE IT?**
The filter includes an auto stop feature, once the pores of the membrane are filled water will no longer be able to pass through.
- **ARE THERE REPLACEMENT MICROFILTERS AVAILABLE?**
Once the MicroFilter has reached the end of its lifespan, individual replacement MicroFilters are available online at vapur.us.
