HEALTHY FOR YOU & THE PLANET

Vapur Sports Bottle
 \$8.95, 4 for \$29.95
 Purchase at
www.vapur.us or
amazon.com
 Available in blue, pink, and green.

Imagine a water bottle that stands upright when full, rolls, folds or flattens when empty, and is durable enough to be freezable and dishwasher safe. In an attempt to lessen the strain the regular bottle waster puts on our environmental resources, Vapur, Inc. has created this innovative new water bottle. Stylish outside, the inner layer is odor, taste, and stain resistant, and best of all, BPA free! So the bottles are both safe and sturdy enough to use over and over again. The 16-oz bottles come with a sturdy clip to help with portability and a spot to personalize your bottle with your name. What could make these bottles better? How about the fact that Vapur donates a portion of all sales to water related environmental causes through the 1% for the Planet program.
